## ACNE VULGARIS

—emotional aspects of, 89\*

## ADAPTATION

—involuntal melancholia as a disease of, 358\*

## ADMINISTRATION

—administrative psychiatry, 377

## ADMISSIONS

—disposition of first admissions to a private psychiatric hospital, 1920-1951, 381

## ADRENAL GLANDS

—function of, in schizophrenia, 99

*cortex:*

—reactions of, to emotional stress, 108

## ADRENALINE—See Epinephrine.

## ADRENOCHROME

—schizophrenia and, 38,\* 50\*

## ADRENOCORTICOTROPIN

—effect of, on electroencephalogram of normal adults, 215

## ADRENOLUTIN

—schizophrenia and, 43,\* 50\*

## AGE

—influence of age on the course of infantile neuroses, 197

## AGED—See Old Age.

## AGRANULOCYTOSIS

—agranulocytosis while receiving combined reserpine-chlorpromazine therapy, 205  
—chlorpromazine therapy and, 207

## ALCOHOL

—criminal homicide and, 189

—physiology of, 293

## ALCOHOLISM

—nature and significance of brain damage from, 98

—neurophysiological study of psychiatric patients with alcoholism, 379

—personality characteristics and the alcoholic: a critique of current studies, 378

—the physiology of alcohol, 293

—psychodynamics of alcoholism: survey of 87 cases, 190

*treatment:*

—chronic, reserpine in treatment of, 391

—reserpine in treatment of, 99

—treatment program for the alcoholic in industry, 104

## AMPHETAMINE

—effect of, on electrical activity of brain, 101

## *d*-AMPHETAMINE SULFATE

—as adjunct to psychotherapy, 159\*

## ANESTHESIA

—role of hypnosis in anesthesiology, 383

## ANEURYSMS

—intracranial, subarachnoid hemorrhage due to, 310

## ANGER

—in hypertensives and normotensives, 380

## ANNOUNCEMENTS

—Academy of Psychosomatic Medicine meeting in Chicago, 283

—Symposium on Psychosomatic Medicine published in the International Record of Medicine, 268

## ANOREXIA NERVOSA

—in the male child, 296

## ANOXIA

—mental performance in chronic anoxia, 380

—neurologic guides to prognosis in, 210

## ANXIETY

—anxiety as an aid in the prognostication of impending death, 294

—clinical experiences with pipradrol and a pipradrol-reserpine combination for, 393

—inherent dangers in use of tranquilizing drugs in anxiety states, 299

—studies of anxiety during pregnancy, labor, the early and late puerperium, 192

—treatment of anxiety states with meprobamate, 207

## APATHY

—as reaction to severe stress, 101

## ARACHNOID MEMBRANE

—subarachnoid hemorrhage due to intracranial aneurysms: results of treatment of 249 verified cases, 310

## ARMY—See Military Medicine.

## ARTERIES

—electroencephalographic study of insufficiency of the basilar and carotid arteries in man, 123

## ASPIASIA

—rehabilitation of aphasic patient: survey of 3 years' experience in rehabilitation setting, 405

- transient cerebellar syndrome from extra-cerebral carcinoma, 396

#### CARBON TETRACHLORIDE INTOXICATION

- central nervous system in, 309

#### CAROTID ARTERY

- electroencephalography in study of insufficiency of, 123

#### CASTRATION ANXIETY

- reflected in the projective protocols of sex offenders, 177,\* 297

#### CATARACT

- plus oligophrenia and cerebellar ataxia, 304

#### CELLULITIS

- emotional aspects of, 90\*

#### CENTRAL NERVOUS SYSTEM—See also Nervous System.

- abdominal symptoms of little strokes, 303
- action of serotonin and cerebrospinal fluid of schizophrenics on brain of dogs, 287\*
- carbon tetrachloride intoxication in, 309

- cerebrospinal fluid calcium, magnesium, and their ratio in psychoses of organic and functional origin, 211
- cerebrospinal fluid thrombocyte-agglutinating substance in multiple sclerosis, 211
- comparative evaluation of two new central nervous system stimulants in severe psychoses, 248\*
- oligophrenia, cerebellar ataxia, and cataract, 304
- possibility of psychosomatic involvement of, in schizophrenia, 201
- ultrasonically produced changes in the blood-brain barrier, 210

#### CEREBELLAR ATAXIA

- plus oligophrenia and cataract, 304

#### CEREBELLUM

- transient cerebellar syndrome from extra-cerebral carcinoma, 396

#### CEREBRAL PALSY

- developmental potential of pre-school children with brain lesions, 105

#### *treatment:*

- quantitative assessment of motor function in, evaluation of zoxazolamine (Flexin), a new muscular relaxant drug, 216

#### CEREBROSPINAL FLUID

- action of serotonin and cerebrospinal fluid of schizophrenics on brain of dogs, 287\*
- cerebrospinal fluid calcium, magnesium, and their ratio in psychoses of organic and functional origin, 211
- cerebrospinal fluid glutamic oxalacetic transaminase activity in neurologic disease, 399
- cerebrospinal fluid thrombocyte-agglutinating substance in multiple sclerosis, 211

#### CHEMISTRY

- chemical theories of psychosis, 323\*

#### CHILDREN

- abnormal electroencephalographic findings in severe behavior disorders, 403
- anorexia nervosa in the male child, 296
- approach to the study of sources of individual differences in child behavior, 347\*
- concept of pseudofecble-mindedness, 106
- congenital indifference to pain, 304
- developmental potential of pre-school children with brain lesions, 105
- influence of age on the course of infantile neuroses, 197
- prognosis in head injuries in, 309
- results of institutional treatment of juvenile mental defectives over a 30-year period, 386
- widening etiology of mental defect, 105
- diseases of:*
  - infantile encephalomalacia with multiple cavity formation, 121
  - multicystic encephalomalacia, 120
  - Rorschach test and diagnosis of cerebral pathology in, 201
- mental deficiency—See Mental Deficiency.*

## CHLORPROMAZINE

- effects of, on electroencephalogram, 214
- in treatment of emotional disorders, 203
- complications from:*

- agranulocytosis after chlorpromazine therapy, 205, 207
- complications of chlorpromazine therapy, 112
- extrapyramidal dysfunction and chlorpromazine therapy, 206
- relation of chlorpromazine to epilepsy, 127
- side effects of chlorpromazine therapy, 14\*

### *evaluation of:*

- clinical evaluation of chlorpromazine therapy for mental illness: analysis of 1 year's experience, 1\*
- comparative study of various ataractic drugs, 300
- controlled clinical psychiatric study of, 269\*
- evaluation of chlorpromazine and reserpine therapy: with follow-up study, 258\*
- in psychotherapy, 113

### *reserpine plus:*

- agranulocytosis from therapy with, 205
- in mental illness therapy, 7\*

### *in schizophrenia:*

- clinical study of, in chronic schizophrenia, 202
- methodology and results with chronic semidisturbed schizophrenics, 111
- reserpine compared with, in treatment of schizophrenia, 205, 206

## CIRCULATORY SYSTEM

- vasomotor lability as studied in patients with disseminated neurodermatitis, 397

## COMMUNITY

- rehabilitation of the hospitalized psychiatric patient and, 109
- urban life and mental health, 297

## COMPULSIVENESS

- chlorpromazine therapy and, 11\*

## CONDITIONING

- topographic study of conditioned electroencephalographic reactions in man, 308

## CONFESSION

- psychology of, 381

## CONSCIOUSNESS

- alteration of, tumors of the reticular activating system and, 125

## CORTISONE

- effect of, on electroencephalogram of normal adults, 215

## CRANIOPHARYNGIOMAS

- psychotic effects caused by, 70\*

## CRIMINAL RESPONSIBILITY

- operational conception of, 190

## CULTURAL DIFFERENCES

- cross-cultural psychotherapy and, 193

## DEATH

- anxiety as an aid in the prognostication of impending death, 294

## DEATH EXPERIENCE

- in insulin coma therapy, 115

## DEGENERATIVE DISEASES

### *of nervous system:*

- Wilson's disease, 400

## DEMENTIA

### *senile:*

- memory and movement in, 103

## DEPRESSION

- clinical experiences with pipradrol and a pipradrol-reserpine combination, 393
- electroshock and efficiency and retentivity of patients in, 208

## DERMATITIS

- emotional aspects of, 87\*
- vasomotor lability as studied in patients with disseminated neurodermatitis, 397

## DEVELOPMENT

- potential, of pre-school children with brain lesions, 105

## DIAGNOSIS

- of psychosomatic diseases, 61\*

### *of malingering:*

- analysis of the meaning of "diagnosis" in the light of some interrelations of social structure, value judgment, and the physician's role, 100

## DICUMAROL

- extradural spinal-cord hematoma: report of a case due to dicumarol, 121

## 1,2 DIPHENYL-1-(4 PIPERIDYL)-ETHANOL

- comparative evaluation of two new central nervous system stimulants in severe psychoses, 248\*

## DIPHENYLHYDANTOIN

- in treatment of epilepsy, 212

## DISCHARGE

- rates of, in 4254 consecutive first admissions of schizophrenic patients to mental hospitals, 97

## DISTRACTIBILITY

- distractibility in the conceptual performance of schizophrenics, 298

## DIURNAL RHYTHM

- in epilepsy, 120

## DIZZINESS

- dizziness attacks and continuous dizziness in the aged, 295

## DRUGS—See also under specific drug, e.g., Chlorpromazine.

- comparative study of various ataractic drugs, 300
- counteraction of the effects of mepazine on the eye by means of parasympathomimetic drugs, 335\*
- differential screening of phenotropic agents in man: psychophysiologic test data, 222\*
- effect of some drugs on the electrical activity of the brain, 401
- evaluation of therapeutic effects of drugs in psychiatric patients, 301
- explorations in testing drugs affecting physical and mental activity, 301
- inherent dangers in use of tranquilizing drugs in anxiety states, 299
